New D 'n' B Releases

CRUNCHLP001 City Of Light - Various Crunch Recordings 12" x 3

barcoded item:5060157035947. The Crunch Recordings concept was conceived in 2005. 'Rolling organic sounds' was the template. Founded by MC Verse, the label is an outlet for his own productions as well as collaborations with good friends and fellow artists. To help kick start the label in the right direction, Verse joined forces with Austrian producer D Kay for the first release. This led to more collaborations with producers such as Keaton 'White Crow', BC UK 'Half Life', D Bridge 'Solitudes Weakness', Phobia 'Volatile' and more recently a solo 12" from the emerging talents of Prolific. Arguably Crunch's hottest release to date has been Verse's collaboration with fellow MC, SP on the devastating stepper 'Surrender' which harks back to the revered Wormhole days. Sticking to its ethos of providing a deep, rolling organic vibe, and taking its listeners on a musical journey, Crunch is slowly but surely cementing a reputation as a label of the highest quality and consistency. Now, here we are in 2008, MC Verse has been taking a break from production duties. Not through choice but due to a ridiculous amount of gigs. Hes currently the frontman of the world famous Rock/Drum n Bass band Pendulum, and also on mic duties for Pendulum DJ sets alongside El Horner. This gave him the idea to involve some of the artists that he really feels are shining at the moment and would represent his label to the fullest. This time Crunch delves deep into the Dutch underground to showcase some of Eindhoven's established and upcoming talents side by side. Icicle, Martyn, Proxima, Nymfo & Mindmapper lend their signature sounds to help craft an album of deep, futuristic rollers, whilst Erosie, also from Eindhoven created the stunning artwork. A great representation of the scene in Eindhoven, Holland, and Crunch's musical mantra.

c Martyn - Baby Baby

d Icicle - Just A Moment

e Icicle feat Nymfo - Adrift

OKLP001 The Firm LP - Various Artists Offkey 12" x 4

Barcoded item:5060157036067 Offkey Recordings/Offkey Music is proud to present their first album release, The Firm LP. Offkey began with its first vinyl release in late 2005 and has since had 10 strong releases, composing of single 12" to double EP releases, plus other releases on digital format. Artists included on Offkey's roster are as follows: Raiden, The Sect, Lethal & Khanage, Propaganda, Temper D, Proket, Audio, Cooh and Current Value, the later 3 coming to the label within the past 6 months. Bringing in all of the above to make new ground breaking tracks was hard as co owners Raiden and ICHI pushed each artist to the max as they threw back original first attempts and requested something more ground breaking. This has obviously paid off as each track is as powerful as anything heard before within the Techno Drum & Bass scene. Once again Offkey try to mould their own sound and come out with something that can only be described as a NEW SOUND. Raiden has been pushing the sound of The Firm LP, with successful tours of Australia/New Zealand, USA and Europe. Bringing a new style of mixing by using Ableton, this once again shows the boundaries Offkey are trying to break by taking new technology and pushing it to the forefront of the scene. All other artists on the label have been having successful tours throughout Europe, which is gathering huge interest for this release, with people determined to know which tracks are on the album. Also throughout August and September Raiden, The Sect, Khanage and Temper D will be touring throughout UK, Europe and Russia to push the album.

DIS029 Sick / Warnings - Break & Survival / Survival Dispatch Recordings 12" Vinyl

barcoded item 5060157036586. Having been a familiar name in many of Drum n Bass's top flight DJs tracklistings recently, you could be forgiven for thinking that Survival is a new artist. This is most certainly not the case. In fact Steve Kielty has been involved in both producing and engineering since the inception of Drum n Bass back in 1993/94. With a recent plethora of well received releases on labels including Creative Source, Exit Records, DNAudio, Quarantine, Play Music and Shogun Audio, Survival's deep, organic sound has rapidly earned him a reputation as one of the true craftsmen of modern drum & bass. Collaborations with Break, Silent Witness, D-Bridge, Fierce, Sabre and Zero Tolerance clearly illustrate the respect he commands from his peers. 15 years deep in this music, Look out for Survival to release his first album. D Bridge's Exit Records soon.

DISTURBD016 Tragedy - Fortress / Brainfuzz Disturbed 12" Vinyl

Disturbed presents its 16th release and again its Disturbing to the fullest! Nasty filthy basslines coming from the Fortress AKA Subtone and Stalker. Subtone and Stalker made name on various labels like Revolution, Explicit, Syndrome and Smpm to name just a few and always with great succes. They managed to build a great string of releases in their neuro-tech drum 'n bass sound. For Disturbed these guys teamed up under their alter ego Fortress which is meant for their most dirty stuff! The flip holds Brainfuzz straight out of France and he drops another dancefloor destroyer on his favorite imprint! Brainfuzz trademark heavy basslines, energetic beats and creepy atmosphere makes this another winner!

NZ005X Foreign Exchange Series Part 1 - Soul Intent / Luca Samurai Music 10" Vinyl

Barcoded item:5060157036715. Finish copy promo. This release comes in a custom designed 'Samurai Foreign Exchange' sleeve and is pressed on blood red vinyl. New Zealand label 'Samurai Music' continues its flow of quality releases from the likes of Klute, Mosus & SPY, State Of Mind & Trei, & Dose with another 3 in a row. First off will be two releases in a row in what is called 'The Foreign Exchange Series'. So much of our time is spent changing cash into British Pounds and back again, we decided to have a series of releases devoted to splitting the musical currency so to speak. One side UK, and one side NZ, both sides quality!

A/ SOUL INTENT – COLD BLOODED: Nottingham's finest kicks off the A side with a sloped out grind that had been languishing in dubplate land and played by many. Fuzzed out stretched reeses and sinister horns slide around over a rhythm guitar line and classic breaks. One of the most prolific and consistently quality new artists around, look for more from Mr Soul Intent on Samurai Music in the near future. DJ Support has come from Physics, Eveson, Sabukuro, Randall, Doc Scott, Commix, Die, Hobzee, & Geoff Presha and so many more we thought it might get tedious.

B/ LUCA – BREAK AND ENTER: First release of what will be very many for the new musical force in New Zealand Drum and Bass, Auckland resident Tim Webb aka Luca. Matching the swing of 'Cold Blooded' perfectly, 'Break and Enter' owes a debt to Boymerang and early DJ Krust. Stepping breaks and menacing efx lay the foundation for an angry growl and some serious guttural sub bass. A tune that feels like it tells a unique musical story is rare these days, and 'Break And Enter' is one of them. A jaw dropping demonstration of the vitality of D&B in 2008." - ATM

BLINDLPS01 Dreamworld (dBridge Remix) - Physics Blindside Recordings 12" Vinyl

barcoded item 5060157037293. Finish copy promo. When originally dropped, Dreamworld caused it's own little ripple on the dnb scene, championed by Marcus Intalex, Marky and in particular, dBridge who helped affirm it as a classic. Not surprisingly, when the question came of who should remix this little gem, dBridge was top of the list. Combing the essence of Physics' original break, vocal and horns with a signature kick and sweeping bass line, dBridge has again created a timeless classic that engulfs you in a wave of music. On the flip the original dream weaver Physics teams up Brazil's other musical wonderment S.P.Y. The vibes stay deep, rolling and ethereal on Superstitious but a hint mafia of menace to keeps you on your toes. Support from men of taste including Friction, Fabio, Bukem, Doc Scott, Randall, Alex Perez, A.I., Fierce, DJ Marky and Kasra.

Be Like This is a right royal skank out. Skipping beats and bouncing bass combine to create a sophisticated dancefloor stepper. Nasca Record's very own Snitchbros, Paul and Peter to their mates, are known for blazing live sets with no fear of expanding the narrow borders of drum and bass ever again. Here is their eagerly anticipated debut release. Their unusual uncompromising style of drum and bass got them attention from Gareth of Pendulum who constantly supports their output. You might have heard "In further blackness" in Pendulum's New Years set 2008 broadcasted by BBC Radio 1. 17th Boulevard is the band project of Body & Soul and Marcus Smaller and scored a huge success with Memories Original on Maldini & Vegas Bad taste Recordings back in 2006. New Dubstep Promos

RAMP014 Murda Skank / Quack - Taz Buckfaster Ramp Recordings 12" Vinyl

barcoded item: 5060157037286. Finish copy promo. Eyes glazed, nose running with a mixture of blood and amphetamines, curled up lip, Taz Buckfaster emerges from a sea of Iron Brew to crush all who stand before him like some Scottish parallel world Godzilla. This hooligan has been causing trouble on the streets of Glasgow for years being pivotal in the cities grime scene, and counts emcee Durrty Goodz, and wonk hop pin-up boys Rustie and Hud Mo amongst his BFF's. Taz has put on his dubstep head, mashing a worrying combination of influences from Altern 8 to Guns 'n' Roses to Dr. Dre together in a thoroughly disturbing way. As a result, Mary Anne Hobbs has pretty much hammered everything this troublemaker has committed to H.D., and current scene hypees Rustie and Starkey have been keeping Taz tunes in their secret weapons box and reducing audiences to a sticky mess across the planet. Now Taz has been let loose on the general public... Lock up your Nan! Forthcoming on RAMP RECORDINGS RAMP015 ZOMBY - The Lie / Hills Of Zion / Nine Lives Zomby is back from the grave with more songs in the key of Betelgeuze. RAMP016 FLYING LOTUS & DECLAIME - Whole Wide World (featuring PATTIE BLINGH) / Lit Up / Keep It Moving World-renowned bi-polar preacher man steps back into his emcee shoes, and brings along everybody's favourite wonk hop producer for the ride. RAMP017 COMPUTER JAY - Distance / Epiphany In the late 70's, a young boy was surgically attached to an Atari 2600 using primitive medical procedures by the U.S. government, and then hidden in a massive conspiracy thingy like them that happen in films and stuff. Upon hearing his plight, we found that boy, who is now a man, and he has only gone and made some tunes!

ARG019 Examination Of Time VIP - Babylon System & Noah D Argon Records 12" Vinyl

Limited Finished copy Promos. Woah! Argon are on a heater right now, release after release of pure fire. Number 19 sees Babylon System & Noah D retackle their dancefloor smasher 'Examination of Time' (featured on ARG015) for a cheeky VIP version, thinking about it it's pretty hard to improve on the original but this is totally immense, combining the deep spacious bassweight that typifies the dubstep sound with the hard edged grit that has creeped into the genre of late, once you hear this you're going to want to party, hard. The B-side 'California Style' doesn't disappoint either, combining a strong hip-hop vibe with a deep groovy snarling bass rhythm. Both sides of this record are anthem material, all dubstep heads need to bag this!

MEDI012 Stand - Quest Deep Medi Musik 12" Vinyl

Limited Finished Copy Promo's. The Deep Medi Musik onslaught continues with 012 and the return of Quest (Last featured on MEDI07Q) for another bout of meditational dubstep business. 'Stand' is a heavy minimal number and is reminiscent of early Mala beats, one for the heads, Mala has been supporting this one big time on the live circuit and Quest is another producer that has been noticed by Mary Anne Hobbs enough for her to invite him onto her Radio 1 show for a live mix. On the flip, 'Eden' is a really surprising tune, incredibly melodic and almost reminiscent of the clean drifting vibe created by more commercial artists such as Zero 7, but while maintaining that bass inclination. Two heavyweight Deep Medi releases in one week, now that's pretty special!

Blackdown, in his monthly column for Pitchfork.com, raves that it's "a master class in swirling subcontinental tablas and warping dubstep bass." On the flip, "Skank Ethics" has become an NYC dancefloor staple, appearing on the Dub War 001 podcast alongside such dubstep dons as Rusko and Peverelist. An instant-classic reggae riff that mutates into something far more nasty, it features scratching and additional drum programming by DJ Boo of the Juggaknots.
