

If Symptoms Persist (ISP)

ISP001 due for release Oct 09

Please read this leaflet carefully before you start to take ISP. It gives you important information about your treatment. If you have any questions or are not sure about anything, ask your doctor or pharmacist, or consult ISP direct via info@ifsymptomspersist.co.uk

What are the active ingredients of ISP?

Each tablet contains two concentrated doses of submersive electronic audio. Catering for more than just the dancefloor, ISP crosses a range of exciting underground genres to create an infusion of Dubstep, Techno, Glitch, Electro, Garage, R&B, and Experimental music. ISP presents a range of talented artists with one common interest, the love of electronic music.

ISP is intended for aural administration only.

What is your medicine used for?

ISP is medicine used to treat the body and mind, and acts as a local anaesthetic for the symptomatic relief of anxiety and stress. ISP prescribes tracks that are not only intricately constructed with severe attention to detail, but are all beautifully distinct in terms of their arrangement, texture, and composition.

ISP Contains:

ISP001: A.Wedge and Shadz – Running Away
AA. Wedge and Shadz - Running Away (Guido Rmx)

ISP002: A. Gatekeeper – Blip
AA. Appleblim – Vansan (Gatekeeper Rmx)

ISP003: A. Wedge and Aesoteric – Detached Reality
AA. Wedge and Aesoteric – Use only as Directed

In addition, ISP are in the process of confirming tracks from Bass Clef, Komonazmuk, Appleblim, Al Tourettes, and B-Lam

What are the possible side effects of ISP?

As with other medicines, some unwanted effects can occur. These may include: delirium, sudden anxiety, palpitations, and mental detachment. Large doses can lead to loss of consciousness, convulsions or coma. Some of the effects of ISP may last until the following day. Elderly people may become confused.

Large doses can lead to loss of consciousness, convulsions or coma In cases where ISP is used over a long period of time dependence may occur.
