New D 'n' B CD

EXITCD004 Live For Never LP (CD Format) - Consequence Exit Records CD

Consequence was introduced to d-Bridge via mutual friends whilst touring New Zealand and after listening to some of his music, dbridge knew that he had found an artist with the potential to create an album suited to the labels ethos of writing music from the heart and not necessarily directed at the dancefloor. d-Bridge had just started his Autonomic podcast series alongside Instra:mental with the intention of showcasing and developing artists who were thinking outside of the conventional Drum & Bass box.

Consequence has become a core member of this crew who have gone on to secure an Autonomic residency at the world famous Fabric night-club and turn many heads from outside the genre such as Laurent Garnier, Skream and Actress to name a few. The album contains collaborations with fellow Autonomic artists Instra:mental, ASC and d-Bridge and is a good representation of the versatility which Autonomic is becoming renowned for. Each track is a piece of music in its own right, but the whole album is best listened to as one long piece that flows harmonically from start to finish through different emotions and atmospheres.

New D 'n' B Releases

OK017 Antique Antic / King Stays King - Martsman / Raiden & Khanage Offkey 12" Vinyl

Raiden's label always comes with something different from the usual D&B formula rubbish. Martsman's track is very impressive, with his refreshing future sound. On the other side it's business as usual from Raiden with help from Khanage, its funky, and not as full on as normal, but again right at the cutting edge. Martsman got into Drum&Bass around the end of the 90s. Debuting on New York based Offshore Recordings in 2005, he released on smaller as well as established labels like Alphacut Records or Counter Intelligence in the following years. In 2008, tracks on Warm Communications and Hospital Records' sub label Med School attract the attention of a steadily growing audience also from outside the Drum&Bass scene.

NONVOGUE004 Big Skeleton LP (Vinyl Version) - The Upbeats Non Vogue 12" Vinyl x 2

If you're The Upbeats, you never know when inspiration is going to hit, or leave you curled up on the floor with laughter-induced abdominal muscles pains. In this particular scenario, their inspiration was a whispered Brazilian ghetto story related to them by a friend. The story of the Cavaeros (English translation: Big Skeleton), a super-tank full of Navy Seal trained Brazilian gang members known to terrorise the favelas of Rio De Janeiro, or on good days, distribute Nike sneakers and free cable. Sounds fucked up right? Anyway, as you've probably gathered by now, The Upbeats were suitable taken with this story, and having already floated the idea of a haunted-house album, decided to title their third album Big Skeleton, out of homage to the Cavaeros; and horror in general.

What the DJ's are saying!

Marcus Intalex: "Two of the most innovative and versatile producers on today's scene. Whenever I get something new from these guys I instantly stop what I'm doing, knowing full well I am just about to hear something totally fresh."

Dieselboy: "Once again redefining the future sound of neuro funk nastiness. Buy on sight!"

Ed Rush: "Everything these guys do demands immediate attention. Drop whatever you're doing and go grab Big Skeleton... sick, sick, sick! They specialize in dance floor artillery of serious weight as we all know from their releases in the past. This album is no different and is a brilliant testimony to their talents. Also includes one of the best dubstep tunes I ever heard... Ship It!"

Be it the haunted click'n'bass soul of 'Bones' (featuring Ned Worboys of Harbour City Electric), the sub-grinding, stream-of-consciousness narrative driven breakbeat insanity of 'Carousel' (featuring MC Kemo from Germany), their speaker-rupturing foray into dubstep on 'Macabre' (co-produced by the mysterious Crushington) or the drum'n'folk atmospherics of 'Through The Night' (featuring award-winning country singer Jess Chambers); Big Skeleton lives in equal balance between the headphone headspace and the mindset of the club, which is a rare and terrifyingly beautiful combination in drum'n'bass. And that's not even touching on the collaborations with State of Mind or Japanese rapper Cardz.

With Big Skeleton, The Upbeats wake the dead, and the whispered terror walks once again.

DON'T SAY WE DIDN'T WARN YOU.

b The Upbeats - Laser Crypt

c The Upbeats - Carousel (Feat. Kemo)

LSLP001 SPL LP - SPL Lost Soul Recordings 12" Vinyl x 4

SPL spent the last 3 years spreading his reach into diverse genres of electronic music. He has opened new branches of the already successful Lost Soul label. He has built on his international success, raining bass down on the heads of unsuspecting clubbers and partygoers all over the world. Now SPL returns to the Drum and Bass fold and does not disappoint. SPL, aka Sam Pool, has created the perfect blend of illusion, reality, precision and chaos within his first solo LP. The self-titled 'SPL' LP either sweeps the listener into worlds built of light and mystery, or drags them into the depths of a bass-filled hell. Lost Soul's first LP release, 'SPL,' is a daringly original take on hard and dark music. With 8 tracks creating a symphony of chemically fueled emotion, ebbing and flowing between aggression and release, it's no wonder why there is already a buzz within the international community of producers and fans alike. 'I want to return depth and focus to dark drum and bass and give people who are turned off by the formulaic horror of today's dark music something that they can identify with' ---SPL---

'Epic and brutal machine funk' ---Dieselboy---

'The most refreshing thing I have heard this year... SPLendidly produced' ---Limewax---

'SPL has outdone himself, presenting an album that has depth as well as danceability' ---The Panacea---

There is a feeling of digitally mechanized destruction to the art within tracks like 'Run From the Feeling' and 'It Will Be Different,' pushing the audience over the edge of what was thought possible with Drum and Bass. Or the driving and sometimes brash 'Angels' or 'Distance' which fools the listener into thinking something beautiful lies beneath, just before an unexpected change in architecture sends them screaming for more low frequency mayhem. And that's just to name a few. 'Sins of the Streets' has been in my box from the day I got it. I thought it was going to be the best tune on the Album. Then I got hit with 'Juggernaut' and 'Distance,' both completely disgusting! Definitely going to get some mileage out of this fantastic album for a long time to come, some excellent cuts on here.' ---Ed Rush---

'Futuristic, funky, filthy are just three words I could use to describe SPL's debut album. Dance floor smasher after dance floor smasher.. Essential.' ---Audio Freak Cult---

The LP itself has a total of 8 tracks bursting with ear candy and ready to lay waste to any system or individual daring enough drop the needle or load the disk.

a SPL - Juggernaut

b SPL - Angels

c SPL - Distance

d SPL - Guardian

e SPL - Sins of the Streets

TRIPS002 Black Eye - Silent Witness Triple Seed 12" Vinyl

Finish copy. The new label from Silent Witness returns. A devoted follower of techno-influenced drum & bass, Silent Witness adds a new edge & attitude, combining elements of the deep & uplifting within his tear-out dance floor productions. Not content with the constrictions of working at the whirly BPM's of drum & bass, Silent Witness has also branched out into house music, joining forces with Dropkick to establish the M3 Project whose debut 'A Better Man' EP is available on Silicone Soul's Darkroom Dubs. He also continues to embrace his passion as a guitarist, playing on many of his own productions.

CITRUSLP004 Venom LP - Jade Citrus Recordings 12" Vinyl x 4

Hungary is the fresh birthplace of so many top producers within the DnB scene.. Mindscape, Matt-U, Chris SU, SKC. But this one producer has managed to produce so many killer tracks Citrus could not just leave it alone... This Producer is Jade. And his Venom LP is the result of his hard work. A deadly collection of productions that, once injected into the eardrum will grasp the host track by track until there isn't anything left! The LP starts off with the track suitably named "No Cure"... A Lethal tune that will keep you grasping for air every time. This Tech'd out battering-ram is made for even the biggest powerhouses to get blown to pieces in just a single hit. "Hit em in between the eyes" click click BOOM! Then flip it over for the title track "Venom" where Jade teams up with the legendary Rymetyme! This time things get different as the rugged sounds will take down venues limb by limb like you haven't heard before. Heavy over the top Neuro sounds rampage through the speakers to break loose the mayhem! Disc 2 contains the Icicle rework of "This Is My World" (the original features on the sampler) stripping down the original to an ice cold minimalist sound. Oldskool tech-steppin vibes are definitely the case here but with an upgraded 2009 feel!

For side 4 Jade teams up with long-time producer friend Matt-U. They did their first release together so this was a logical step. And if logical could sound so phat as this. then logical is the way to go. Moblaw is a straight up elbow greaser that'll make you get messy on the dance floor. The funk just oozes off this tight production that'll make you scream for more! Then on to disc 3... where Jade remixes three of his best friends. namely the Dutch trio that's Black Sun Empire. This remix tributes the trio as they where the first ones to recognise the skill of Jade's production. But now its time to repay the favour as his remix gives stasis that extra piece of fire it needed as it turns into a piece of dance floor filth like no other. Have the tables turned? Then for the flip Jade teams up with another group of comrades, namely the Mindscape boys! These guys aren't by all means strangers to the Citrus label so their track "Banshee" fits on here like Rum & Coke. Just listen and let yourself get transported to the early 2000 era of DnB. But with a heavy 2009 taste. Then for the final disc. Jade goes all solo style with Forged Reality. this shows how versatile Jade can be when he's alone in the studio. half step, rolling this one goes from the one to the next without any trouble. Then for the last one.. Jade doesn't sees the last tune to be a tune to be neglected. So on this one he goes all out with Mindscape & Axiom! Heavy synthy basslines rip open the track just be pumelled by the beat towering beats that make this tune a pounder beyond proportions!

Dose returns to Fokuz Limited for a solo 12 inch that is the embodiment of the Fokuz limited sound! gentle yet ruff. soft with a hard edge yet still keeping that feel that is Fokuz. The A side is The Place Between which shows a different side of Dose. A more educated sound that'll drop well in those early sets. Broken beats which get followed by an heavy bass line like in the good old days! Flip it over for another Dose production featuring newcomer Blackplanet! Man The Weather starts off all atmospheric and keeps the rolling vibe alive like only dose can do. But it switches over to the neuro side of things just so it can turn back to the atmospheric sounds. A perfect tune for people who play both sides of the DnB spectrum.

KGO002 The Love Quadrant - Space Dimension Controller Kinnego Records 12" Vinyl

Electronic / Dubstep label Kinnego Records started by Boxcutter out of Northern Ireland is back! After the success of the first release (by Boxcutter himself) he introduces the masses to a producer named 'Space Dimension Controller'....the techno funk alias of 19-year-old Jack Hamill. Following on perfectly from Boxcutter and Kinnego Flux's "A Familiar Sound" on KGO001, it features 2 tracks of deep, loved-up electro. Equally inspired by both the tape warped soundtrack to Garth Merenghi's Darkplace and early Aphex Twin, Jack's all-analogue production gives his tracks a timeless sound that's a mile away from contemporary electro and house. The beats are low slung and funky, and the melodies are addictive and show a natural flair. On "The Love Quadrant", a girl / boy vocal exchange sets the scene while the track builds momentum, before the whole thing spaces off on a sweet minimoog solo. On the flip, "Electropod-250 Collision" has a deep 808 pulse and flanged bass, topped off with Detroit-inspired melodies and blurred out reverbs.

Finally finding its way on to Vinyl.. the Buraka Som Sistema is an electronic music project from Portugal. New Hip Hop Releases

RAMP026 Bare Feet - Maxmillion Dunbar Ramp Recordings 12" Vinyl

Finish copy. Maryland resident MAXMILLION DUNBAR caught our attention on a desperately limited 7" last year on his own Future Times imprint. Swerving the current contrived reference points, B-Boy Max forges his own path mixing a kaleidoscope of boogie, electro, hip hop & analog soul.

Max's first EP for RAMP starts with Bare Feet clipping sparse soul loops with epic flourishes, Loveloop/Socket Bonus marrying cascading synths and 808's, Wouldn't Matter chops up a relentless boogie loops and epic disco strings, and WAVS draws the EP to a close with 80;s beat boxes and ramshackle synth lines.

a2 Maxmillion Dunbar - Loveloop/Socket Bonus

b1 Maxmillion Dunbar - Wouldn't Matter

b2 Maxmillion Dunbar - Waves

New Skweee Releases

HRMN10 Harmönia Presents: International Skweee Vol. 2. - Various Harmonia 12" Vinyl

LP (limited edition of definitely-not-enuff-copies), The eagerly awaited sequel of Harmönia's International Skw*** -compilation has finally landed! Once again Harmönia's artists are setting new standards for electronic dance music. Unlike the blood suckin' vampires of brain dead club music of today, these cats have been mastering their art in silence and are just about to teleport mankind back to the zone of full funkativity! The Funkentelechy has been found once again! 12 artists – 10 tracks of the finest analogue soul. International Skweee Vol. 2 opens with the smokey P-Funk stylings of our favourite Frenchman: Wankers United! You can definitely hear the atomic dog barking. Skweeemasters Beem and Joxaren have united their forces for the first time in history and produced a next generation banger of harsh acid funk. AC/DC goes Skweee? Swedish-Iranian Uday is back and this time with a message. The shah of Middle Eastern electro has teamed up with an unknown Iranian woman to bring us this revolutionary piece of Arabian funk with a message of strength and democracy: "Boland Shin" (Rise Up)! A-side is wrapped up with the flute-driven disturbed grime of Coco Bryce's "Ghetto Freaks" and Finnish noise-generator Claws Cousteau's "North State of Mind" which is a party rockin' example of his aggressive Stylophone crunk. B-side opens with the amazing Arab-influenced RnB of Easy and The Center of Universe. "Hamada" sounds like Erkin Koray teaming up with Lil Jon and 40 virgins in an Ottoman hashish orgy. Finnish-Swedish Markis Sage makes a fantastic return with the 80's tinged mellowness of "Creature of Lagoon". Rarely a track of this beauty can be such a funkster at the same time. Icelandic prodigy Rabbi Bananas lashes out a broken beat holocaust with a riotous SH-101 screeching. "Cat Eat" is a true bastard of a track from the tiny country mostly known for its shoe-gazing soundscapes. We don't know what the Canadian caveman Slow Hand Motëm was thinking when he sculpted the slow-burning crunk of "Smells Like Randy Barracuda", and we don't really give a shit. It's Great. Shine on You crazy bromosexual! The victorious compilation is finished with one of the Harmönia staff's favourites: Despite the misspelling, Daniel Savio's heart achingly beautiful "People Die, Love Don't" shines through the darkness like thousand crystal suns. We at Harmönia are Very proud to bring You this episode of the International Skweee series. An album of great quality that surpasses its predecessor in various ways. Free your mind and your ass will follow – The kingdom of heaven is within! -P. Jerkman/A&R, Harmönia Records.
