New D 'n' B Releases

EXITLP004 Live For Never LP (Vinyl Format) - Consequence Exit Records 12" Vinyl x 4

Consequence was introduced to d-Bridge via mutual friends whilst touring New Zealand and after listening to some of his music, dbridge knew that he had found an artist with the potential to create an album suited to the labels ethos of writing music from the heart and not necessarily directed at the dancefloor. d-Bridge had just started his Autonomic podcast series alongside Instra:mental with the intention of showcasing and developing artists who were thinking outside of the conventional Drum & Bass box.

Consequence has become a core member of this crew who have gone on to secure an Autonomic residency at the world famous Fabric night-club and turn many heads from outside the genre such as Laurent Garnier, Skream and Actress to name a few. The album contains collaborations with fellow Autonomic artists Instra:mental, ASC and d-Bridge and is a good representation of the versatility which Autonomic is becoming renowned for. Each track is a piece of music in its own right, but the whole album is best listened to as one long piece that flows harmonically from start to finish through different emotions and atmospheres.

NONPLUS003 Porcelain - ASC Nonplus Records 12" Vinyl

Instra:mental welcome a new addition to the Nonplus+ camp who goes by the name of ASC. This producer is by no means new to making music, but recently his productions have become an essential addition to dBridge & Instra:mental's Autonomic podcast series and also frequents their club sets.

a) ASC 'Porcelain' is a perfect illustration as to why Instra:mental have been paying ASC's music so much attention. It begins with a glitchy yet groove-laden beat coupled with dramatic piano and fx stabs, then fills out with a warm drawing sub bass and smooth atmospheres. As the track progresses and you think it's reached its climax, ASC cleverly layers an almost oriental sounding percussion stab to accompany the bass line and picks up the track to another level. This track is a prime example of being able to express the utmost with the minimum.

aa) ASC 'Focus Inwards' is the deeper side of this 12" and as the title suggests, takes you on a journey into yourself. Fully charged with progressive chords and melodies alongside electric sounding drum fills and percussion, the arrangement, musical content and pure elegance of this track give us an insight into ASC's compositional abilities and potential for the future.

FKZLTD021 The Place In Between / Man The Weather - Dose / Blackplanet Fokuz Recordings 12" Vinyl

Hold tight people cause Fokuz Limited returns with yet another release that does the Limited side label of Fokuz proud! Dose returns to Fokuz Limited for a solo 12 inch that is the embodiment of the Fokuz limited sound! gentle yet ruff. soft with a hard edge yet still keeping that feel that is Fokuz. The A side is The Place Between which shows a different side of Dose. A more educated sound that'll drop well in those early sets. Broken beats which get followed by an heavy bass line like in the good old days! Flip it over for another Dose production featuring newcomer Blackplanet! Man The Weather starts off all atmospheric and keeps the rolling vibe alive like only dose can do. But it switches over to the neuro side of things just so it can turn back to the atmospheric sounds. A perfect tune for people who play both sides of the DnB spectrum.

On his new 12" on Future Sickness, Lucio De Rimanez creates an alternate reality in which the dinosaurs never became extinct. With Breath of Steel and Rising Of Rhinos, Lucio De Rimanez brings you the battle themes of Jurassic mechas and cold-blooded, android carnivores. Get ready for two extremely driving tracks that come down like a meteor strike, only leaving lots of dust when they are done.

MEDI022 WA6 - Harry Craze Deep Medi Musik 12" Vinyl

Harry Craze part of the Anti Social Entertainment alongside Silkie, Quest, Mizz Beats, Jay Five and others. Fresh from his 'French Knickers' 12" collaboration with Silkie on the Break the Habit label, Harry delivers two of his own productions 'Wa6' and 'Thirty Six Hours' to devastating effect, showcasing his unique production skills and bringing fresh forward thinking sounds to the label.

DJ MAG – Dubstep Single Of The Month - "Some tunes really hit you in the soul receptors, and 'Wa6' by West Londoner and anti-socialite Harry Craze blows dust off the 45, and moistens the eyeballs. If J Dilla made dubstep, you'd get the same feeling; sweet strings bounce off mood-drenched synths and circulate the warmth. And whilst this won't set the dancefloors alight, it will start a fire in the soul. The flip is great too, but you'd be forgiven for never listening to it".

AR030 Last Drop / In the Background - MRK 1 / Cyrus Eight:FX 12" Vinyl

Both MRK1 and Cyrus' records can consistency be heard all over the world tearing through your local club's subs and blowing up the speakers in your 10 watt radio as you listen to any of the number of electronic DJs on BBC Radio 1, 1xtra, Kiss FM etc now supporting the bass heavy genre that dominates music's lowest frequencies. For this 12" two of Dubstep's most established artists return to Eight:FX for the next in the labels Future:Dubstep series. To coincide with the release of MRK1's Future:Dubstep:03 compilation, him and Cyrus each present two massive chest cavity shattering, club smashes which have received support from some of the biggest names in the scene and the likes of Kiss FM and BBC 1xtra on Crissy Criss' Drum & Bass show. MRK1 was there from the start. He's appeared on every major Dubstep radio station, as well as BBC Radio 1, 1Xtra and Kiss FM. He's toured the world, and been featured in magazines from RWD and Knowledge to Mixmag, and this months I-DJ, making him without shadow of doubt one of the most established players in the Dubstep scene, ever. Cyrus is another of Dubstep's veterans. Having released on legendary labels including Hyperdub and Techtonic, played all over the globe at the genre's most prestigious events and venues, as well as on BBC Radio 1. Having taken almost a year away from vinyl following Hatcha Vs Kromestar's Brother's Grim LP, and concentrating on a host of successful digital releases, Eight:FX recently returned to 12" for a series of vinyl to coincide with their Future:Dubstep compilations. 01 was mixed by Kiss FM's Hatcha while 02 was mixed by newcomers Bare Noize. The first Future:Dubstep 12" release featured tracks from both of these artists and was the start of a new push for Eight:FX to build back up vinyl fan's awareness of the label. This is the second step, featuring tracks that have been supported around the world, and released alongside the 2 x CD compilation mixed by MRK1 (which contains over 45 completely exclusive tracks from other Dubstep superstars including Crazy D, Hatcha, and Kromestar) this is sure to see Eight:FX not only topping digital genre charts but also in the top echelons of the physical charts once again.

KOKESHI002 Afterlife - Lung Kokeshi 12" Vinyl

Kokeshi is the new label from Alley Cat, DJ/producer and co-director of ESP Agency with 12 years+ of music industry experience. Lung : Afterlife / Time - 19-year-old discovery Lung, from Cardiff has only been producing for a short time but has managed to make some of the most moving sounds this year. Having already featured on Mary Anne Hobbs' BBCs Radio 1 Experimental show, he's been slowly building a grassroots following through two local DJ residencies and online support (dubstepforum.com) and will undoubtedly reach a much bigger audience as his first release on Kokeshi takes flight. 'Afterlife' features layers of pads and effects with an eerie vocal and gut wrenching sub. Support on Radio 1, and various UK and international web and college radio stations. One for the floor, and one for the ipod. 'Time' offers a nod to old school d'n'b/jungle with its breaks and its piano riff, yet Lung still pulls off his signature emo-dub-tastic style with ease, making it sound new and fresh. Given the thumbs up by TRG and Vaccine.

INFRA003 Infra003EP - Spatial Infrasonics 10" Vinyl

The Spatial 10-inch EP series reaches its third and most visceral installment yet with '90729' and '90807'. Spatial's inaugural release on Infrasonics in late 2008 was enthusiastically welcomed by listeners, DJs and critics, as was its follow-up earlier this year, a reaction attributable to the producer's instinctive fit with one of the prevailing moods in dubstep – in reclaiming the fluidity of 2-step garage and reappropriating dub-techno processes, these productions capably stand alongside those of Martyn or 2562. More than the execution of these satisfying tropes, though, their strength lies in a spooky attunement to the faint vibrations of a whole spectrum of dancefloor epiphanies, presenting in some ways a crisper, less melancholy counterpart to Burial, or even James Kirby's projects as The Caretaker, but from the right side of the comedown. This latest collection of tracks, possibly Spatial's most evocative, takes indirect inspiration from experience of the kind of '91-era Euro-rave documented in Warlock's recent mix for FACT magazine. Removed as the comparison might seem given their wrought, contemporary sound, vestiges are detectable, such as the transmuted Hoover basslines, hollow panic-synths and ectoplasmic vocal trails that at the peak of these tunes threaten to fill out Spatial's characteristically airy, open-textured mix. Correspondingly, '90729' and '90807' all constitute conscious attempts to aim more squarely at the dancefloor, with success already coming in the form of DJ support from Untold, Incyde, T++, and Dubwar NYC resident Dave Q.

TW003 Trouble Is / Holiday - Turboweekend TW Records 12" Vinyl

Danish synth-rock band Turboweekend's first release in the UK is an atmospheric yet heartfelt cry of regret on the A-side and a jumpy celebration of the end of work obligations (with an ironic twist) on the B-side, featuring the royal company of Bristol's finest, Joker, and indie prince Russell Lissack from Bloc Party.

"I am tipping them for very, very big things here in UK. The Lead singers voice is amazing.(...)This is huge." -Mista Jam (live on BBC1 and 1 Extra)

"Natty Danes Turboweekend's angsty single 'Trouble Is' is like One Republic's "Apologize" as seen through the bass lens of Blank Dogs (...) It's an excursion into the dark crevices of your feelings, but don't EVEN try and tell us you're not at least a little emo." - The Fader.com (Julianne Shepherd)

"Wow. Most remixes don't do justice to the original song, but this is from another world. This bass heavy remix is the reason I love British music." - Man Movement.com (LSR)
