CRIT045 Redlines - Total Science Ft. Riya Critical Music 12" Vinyl

As we head into the warmer months camp Critical brings a true sunshine release from one of D&B's tour de force production duos, Total Science. The original jungle dons push all the right buttons here as they team up with Riya for a sumptuous vocal excursion like no other. 'Redlines' has already been given the thumbs up by the likes of Mistajam and Ras Kwame on BBC Radio 1/1xtra and it's not hard to see why. A solid locked groove rolls from the start on this one with a polished break and beautiful melancholic piano hook that draw you in before the real treat begins; when Riya's gorgeous vocal drops in your heart will melt. Effortless audio bliss for all the lovers out there. Things then toughen up 10-fold on the flip as the Total Science party boys drop 'Skinz', a crisp and dry piece of Bristol-esque D&B with a thugged-out b-line that's had clubs shaking all over for the past six months. Included on Friction's 'Assassin Vol.1' mix cd last year, this release comes with one of the highest endorsements available! Big support from Friction, Fabio, Nu:Tone, Cyantific, Kasra, Logistics, Sabre and more.

DSM014 The Visitor - Data Deep Soul Music 12" Vinyl

The first DSM release of the new decade sees them continue to push leftfield, forward thinking drum & bass. 2009 was big year for Data with releases on Revolution, Horizons, premier dubstep label Tempa aswell as the mighty Metalheadz and for his first release of 2010 he returns to DSM with two tracks that cement his reputation as one of the most exciting and innovative producers in drum & bass at the moment. 'The Visitor' sees him come with a slightly different style than his previous releases with the stripped back, stepping into giving way to skipping high hats that drive the track forward and a monstrous distorted Reese bassline reminiscent of late 90's techstep. For the AA side he teams up with newcomer Kingsin for 'Baggage', and it is perhaps Data at his most experimental with sharp, staccato, almost off beat drums and haunting synth lines coupled with a his trademark growling bass. Both sides show a diversity in his production and goes to prove he is not one to stick to any particular style, but rather constantly innovate and push boundaries with his music.

BLR003R K Zero 9 / Eclipse - Outrage / Outrage & Digital Backlash Records 12" Vinyl

Following up their critic ally-acclaimed Red Letter LP, Digital and Outrage link up for Outrage's Backlash Records with "Eclipse", a dub-soaked number to start 2010 proper! Lead by a thumping kick, this one is a dub-lovers dream, flowing with loads of effects, echo and perfectly timed ragga vocals. There's a lot of space in this one, allowing the elements to breathe, and the atmospherics feel like the soundtrack to the moon overtaking the sun. On the flip, Outrage's "K Zero 9" finally makes it way to the record bins. This one has been tearing things down in its slow-burning venom, and is the perfect lick to get the party started, or send a ready crowd into a frenzy with its hypnotic bass. While the dub-side of Drum & Bass seems to be almost forgotten, its good to know that the torchbearers are still around, injecting tough riddims for those who know. -Khal (dogsonacid.com)

MODULE002 The Cleaner / Raindance - Hybris Critical Presents : Modulations 10" Vinyl

Finish copy. Modulations is the proud younger sibling of Critical music launched in 2010. The label got a head start with Lenzman and now brings yet more vacuum-packed freshness, this time from new boy Hybris. An awesome second release for the fledgling imprint that's got people talking throughout the scene. The schedule for Modulations will include artists old and new with each release coming on 10" high grade virgin vinyl in a gorgeous slick housebag. A discerning product for the discerning D&B fan. First up is 'The Cleaner' with sharp drums and that dangerous subliminal, almost toxic bassline. Serving as the perfect accompaniment to 'Raindance' with its thunder cloud atmospherics, it has the electricity, the thickness in the air and delivers the quiet before the stormy drops. The single is a perfect combination, even meteorologically, and should make any drum and bass connoisseur fidget with anticipation for more from Hybris. 'Raindance' is a hauntingly beautiful take on what we would expect from darkside of drum and bass. The tribal vocals and broken beat percussion make it a tune to be remembered with subtle but sick bass and a fantastic spatial awareness. It shows how less can be so much more with a classy production prowess that many drum and bass veterans still strive for. So hold tight and be prepared to be carried away in the hypnotic magic of 'Raindance'.

INMIN001 Only Words - Blue Motion Influenza Media 12" Vinyl

Finish copy promo. After a lengthy successful run with Influenza Media and Influenza Digital, label owner, Eros comes through with a brand new sub-label for 2010, Influenza Minus. Targeted to a deeper, minimal, experimental sound, the imprint will feature an A list of talent, including Triad, Brandon Miles, Tricky Pat, Blue Motion, Mister Sizef, Unquote, Glen E Ston, Decem, Dominic Ridgeway, Eleven8, Molecular Structures, Material, Reza, CJ Weaver, Omnius and many more. Influenza Minus will be available in vinyl, digital and compact disc format. If you take a trip back to Influenza Media 007, you might remember the fantastic uptempo vibes of Blue Motion's 'Only Words VIP.' Influenza Minus 001 revisits this glorious track, bringing forth the original mix and a remix by Triad, the collaboration of Basti (which is also a collaboration between Madmen and Poets from Phunkfiction) and Henree. The trio has music out on Deep Soul Music, Horizons Music, Critical, X-tinction and Engine Music, and one of their most recent releases Omar featuring Estelle - Lay It Down (Triad Remix) has just been released on Peppermint Jam. In Blue Motion's original mix, progressive, steppey vibes roll this one in before the melodic hook takes over. Very minimal in nature with a warm bassline, samples and piano lines build endlessly and seamlessly before making way for Triad's teched out sound. A moody bassline sets the atmosphere with arpeggios of angelic voices, leading into a moment of silence before the drop. Fans of Critical Recordings, Subtitles and Quarantine would love this one.

NXG006 Superbad / Morning Light - Intelligent Manners / CJ Styles NexGen 12" Vinyl

Finish copy. NexGen Music touches down with its latest lick of soulful, sophisticated Drum & Bass featuring one of Russian Federation's hottest DJ's & Producers – Intelligent Manners and new artist CJ Styles from the original home of drum & bass - England, U.K. Following on the back of the label's last release from Kyro & D.A., NexGen return with two absolutely heavy dance-floor killers 'Superbad' & 'Morning Light'. NexGen Music releases always deliver sublime production and musical quality and this latest release is no exception. NexGen always prefers not to 'name drop' supporting DJ's, as they believe in letting the music do the talking. Truss..... There aren't many liquid / soulful vibes spinning DJ's that don't have this one in the box!

A. INTELLIGENT MANNERS – 'SUPERBAD' - 2010 Russia meets 1970's American rare groove-funk-soul = PURE JAZZED UP DRUM-FUNK! This tune features a tantalizing build up laced with heavy rolling drums and clever slabs of funk coming at you from all directions. The tune then drops into crazed funk mayhem with sharp, crisp drums and a deep sub bass that would churn any hardcore worm-eating stomach. This is the proper rinse-out and the ultimate 'Drum-Funk' tune for the summer. A must have...

AA. CJ STYLES – 'MORNING LIGHT' - Just as the title of the track suggests - you are greeted with warm, quiet but somewhat eerie tones exactly what you may expect to hear on a spring / summer morning but don't be fooled! Hard crisp drums gently enter the build up with nasty bass stabs floating in and out of the mix followed by a heavy drop with multiple bass-lines and aggravated synths. While the bass is deep the gentle tones effortlessly weave in and out of the track creating a very well executed musical composition. This is a top maiden release from CJ Styles of whom we will be seeing more quality releases in the near future. Watch out for future NexGen releases featuring Qumulus, Earth Leakage Trip, D.A, Clart & mSDoS, Eastcolors, Kyro, Matt Doubt, Kubatko, plus many others.

HDB034 Hylø / Suzuran (LV & Quarta 330 Remix) - LV & Quarta 330 / Dong HyperDub 12" Vinyl

Two collaborative tracks from Quarta 330 and LV, made when the pair met the day after Hyperdub's fifth anniversary party in November last year. These tunes exemplify the kind of meeting of minds where the best of both producers comes to the surface, as Quarta 330's 8-bit abstraction and melodic sense contrasts nicely with LV's characteristic lush figures and shuffling rhythms. 'Hylø' finds 8-bit melodies made from rebuilt Gameboys and sonar-like bleeps weaved into the crunchy snap of a reverse drum beat and warm chords, breaking down into a sonorous motif before stepping up the pace once more. It's an energetic mix of brittle and lush sounds. On the AA side, 'Suzuran' is a joint remix of Quarta 330's own remix of Japanese chiptunes artists Dong. LV places the slurring space pop of the Japanese vocoder vocal melody inside a remix constructed from syncopated drums and offkey bleeping patterns. The results are catchy and alien, as melodic sweetness is juxtaposed with the tension of the setting.

His wide range of musical tastes have certainly shone through in his productions with labels such as Appleblim's highly regarded Apple Pips label, British based alternative label Saigon Recordings and Deca Rhythm already signing tracks from him, all due for release in 2010 making this a very busy year for Orphan101. His live DJ sets have gained a reputation on radio and in clubs as a new diverse sound with little or no boundaries to what he will play. His sets do not sound out of place whether it be minimal house, techno or dubstep This approach has recently earned him a residency in Berlin, Bristol and also Apple Pips nights across Europe.

Saigon Recordings was established in early 2010 after the discovery of some truly unique talent hovering in-between the Techno and Dubstep circles. Operating out of the South of England (UK) Saigon Recordings will be unleashing music from a variety of relatively untapped and exciting artists including Orphan101, Duffstep, Microburst, Ike Release, Gravious and more.

RAMP034 Fast Motion - Becoming Real Ramp Recordings 12" Vinyl

Finish copy promo. Becoming Real is a young producer residing in a forgotten suburbia, busy channeling his very own post-apocalyptic vision of London. A spectre-like entity flitting between a range of electronic frequencies, his self-termed 'Ghost-Step' sound is as much influenced by a conceptual future dystopia as by luminaries Zomby & Mount Eerie. Re-imagining the iciest of grime synths through a warped K Records aesthetic, Becoming Real has forged a frozen universe that still retains an unequivocally human feel. Charged with future-dread, this is music for seas drowned in oil, tar-coated forest landscapes, and a prophesised world of underwater clubs and haunted dancefloors. After a sold out debut white label release last year, Becoming Real is ready to emerge in 2010 with the release of 'Fast Motion' / 'Jen's Clock', backed with a Scratcha DVA remix of Fast Motion.

Having had big releases on scene-leaders like Tempa, and his debut album coming on H.E.N.C.H. later this year, his versatility as a producer and engineer is second to none. Teaming up with Appleblim for remix work has resulted in stunning reworks of artists as varied as Bonobo, Brendon Moeller, and Harmonia & Brian Eno, for labels such as Ninja Tune, Francois Kevorkian's Wave Music, & Will Saul's Aus Music. In fact after Komonazmuk & Appleblim remixed Lee Jones & Nick Hoppner's My My project for Aus Music, Lee Jones returned the musical favour with this stunning deeper than deep house rework of Dance Too... A producer that can flex to any side if he wants to and for his Subway debut he concocted 2 heavyweight dancefloor monsters that will leave the crowd begging for more. "Recovery" strikes like a ton of bricks. The heavy bleeped out intro is only camouflage cause after the towering drop itll smash your face in proper. Nasty gnarling midranges terrorise this heavyweight tune giving it that special Subway edge. On "Headlock" Taz shows he can wobble his gut any way he can... Get ready for an epic drunken wobbling style track thats bound to create pits around the globe... The unexpected edits give this tune the WOW factor Subway has been craving all along. This release has been gaining support among some of the key players representing this sound. Play Support: 16Bit, Trolley Snatcha, Datsik, Funtcase, Jakes, 501, Flux Pavilion, Doctor P & Loads More!

HRMN012 On The Low - Randy Barracuda Harmonia 12" Vinyl

Finish copy promo. After a decade of bitter tears and hopeless trying our Finnish funkster Randy Barracuda has finally reached his ultimate goal as an artist. He has managed to combine successfully the music of his two favourite composers: Klaus Schulze and Lil' Jon. 'Impossible', You may say. Well, don't believe the hype. Take a listen to Streisand Effect's booming crunk beats, heavy basses, epic synthesizer leads and cristallic arpeggios and choose for yourself. Dubstep - hero Tes La Rok's outstanding remix stays true to the original but adds some extra dubby aesthetics to Randy's storming soccer stadium skweee vibes. Backside of the record is dominated by more moody and naturalistic atmospheres. Tako To Ama (The Dream of the Fisherman's Wife) is Randy's homage to the grandiose tradition of Japanese tentacle erotica. In its Asiatic moods and sharp synthesizer stabs You can almost feel the slippery tentacles of an octopus wandering around in your bodily cavities! Record comes to an end with Lebensraum, an eight minute long meditative disco reggae. On Lebensraum the listener finds a totally new aspect of Randy Barracuda's aural art: gone are the rapid staccato melodies and usual stiff funkiness. Maybe Credit00, a mysterious East-German bongo player, gave the track its naturalistic charm and the comfy aura of a forest in the springtime.

DPCD001 "My Style" 23 Upfront Dubstep tracks mixed by Caspa CD + BONUS DVD - Caspa Dub Police Records CD

Caspa's success was no fluke though, in fact you'd be hard pressed to find a harder-working person in the industry, having built up his ever-growing empire from scratch. In 2010 he is a man in demand, off the back of his debut artist album last year "Everybody's Talking, Nobody's Listening!" he has remixed the likes of Deadmau5, Depeche Mode, Mike Snow and most recently U.S superstar Ludacris. He's helped bring through acts such as Emalkay, The Others, D1 and Subscape through his labels Dub Police and Subsoldiers and via his regular sell-out label roster club shows, most notably the pre-mentioned Fabric residency. His DJ schedule is still out of control with an average of 15-20 shows per month, booked up 6-months in advance and this summer the shows are only getting bigger. In June he'll make his debut at Sonar festival... On the main stage... In between Dizzee Rascal and The Chemical Brothers - things have changed for the boy from Chiswick. And on to "My Style!", the brand new mix series from Dub Police that once again plans to break the mould of what a dubstep mix can be with a number of acts already being lined up for future editions. But we're getting ahead of ourselves; this is No.1 and who better to take the controls than the label head honcho Caspa. In the mix he takes us through the full spectrum of dubstep sound with dance floor slayers from the likes of Skream, Emalkay and Doctor P through to the more eclectic sounds of Joy Orbison, D1 and Joker. Of course there's an untold amount of exclusives to boot, giving fans an early preview of some of the biggest records set to blow up in the summer months, with brand new material from the Dub Police / Subsoldiers camp.

From the 23 tracks selected we see Caspa couple upfront and unheard material with some of the scene's biggest anthems of the last year with Emalkay's "When I Look At You", Joy Orbison's now classic 'Hyph Mngo' and Caspa's massive remix of Deadmau5 "I Remember" all featuring throughout the mix. Seamlessly blended, Caspa nails it with a 100% live, 1-take exceptional DJ mix using (as ever) only dub plates, a mixer and a set of 1210's.

The mix will also come with a bonus DVD, featuring exclusive content from Caspa and all the Dub Police crew. The DVD is Exempt for classification: Educational Music Documentary.
