New D&B Releases

NONPLUS006 Nothing Is Certain LP 12" Sampler - ASC Nonplus Records 12" Vinyl

This is the 12" sampler for 'Nothing Is Certain'. The main event is set to follow very shortly after. The wait is nearly over! The Autonomic crew have been at the forefront of the movement currently breathing new life into Drum & Bass music. Whether through their fantastic series of podcasts or releases on DBridge's Exit & Instra:Mental's NonPlus record labels, people are starting to take notice. No stranger to DnB himself with releases under his belt on Covert Ops and Nu-Directions to name a few, producer James Clements aka ASC was called up in late 2009 for the 3rd release on Nonplus, and the rest is history. With his tracks being featured on dBridge & Instra:mental's recent Fabriclive mix & ASC is a name you're going to be hearing a lot more of.

NONPLUSLP001 Nothing Is Certain LP - ASC Nonplus Records 12" Vinyl x 3

Since his first appearance on Nonplus, ASC has been hard at work on his LP and its finally here. Starting with a 12" sampler he dives right in at the deep end with 'Phobos' in which electronic grooves and micro samples entwine against a backdrop of dramatic tones and industrial hits. Followed on the same side by the atmospheric hiatus 'Oort Cloud' you have a good inclination of the impending album by now, but are also treated to the AA-side 'Matter Of Time'. Like a continuation of his debut Nonplus 12" track 'Porcelain', his crafty use of oriental sounding percussion, windlike sounds and melodies combined with an efficacious bass line make this track very hard to listen to in its entirety before you reach for the reset. The album touches on many genres from start to finish such as the 4x4 offering of 'Textura', or the almost indescribable step of 'Yatta', but one common theme that this album holds throughout is the amalgamation of influences derived from all genres of music and ASC's ability to combine these to create something new and unique. Collaborations with fellow Nonplus artist Vaccine and Exit Records artist Consequence add fuel to the fire, keeping it burning hot from start to finish. Nonplus Records proudly present.....ASC - "Nothing Is certain"

TRNSL006 Denile / A Chain Of Red - Grimm & Nusense / Resound Translation Records 12" Vinyl

Translation Recordings is proud to unveil the first pairing of tunes from debut LP/compilation "Without Borders." Rinsed by DJs to include Grooverider, Anile, Sinistarr, and Stunna, "Denile" is a collaboration between Canada-based artists Grimm & Nusense. The duo deliver a stripped-back and cavernous steppa, with deep low-end rumble, acid squelches, and reverberated dubstyle chords. The flip welcomes the return of Translation veteran and Finnish dnb all-star Resound in the futuristic sounds of "A Chain of Red," where floating synth pads weave through a crunchy, 8-bit tone sequence. Spliced drum edits at the drop quickly change the uplifting opening vibe into a more sinister and moody one that is charged by an electrified synth bass wall. Meanwhile, a combination of congas, snares, and hi-hats punch in and out of the mix to give this monster of a tune its staccato percussive core. These dancefloor-oriented tracks represent only a small sliver of the spectrum and vibe covered by the "Without Borders" LP/compilation, which will be available in the coming weeks on CD & digital download featuring exclusives from Solar Empire, ASC, Mindmapper, DBR (UK), Marginal, Dub Phizix, Edward Oberon, Stranjah, Theory, Slider, and Expose. Keep it locked!

BMT004 Natural History Remixes: Part 2 - Blu Mar Ten Blu Mar Ten 12" Vinyl

Finish copy promo. Where the album version of 'By The Time My Light Reaches You I'll be Gone' was slow and contemplative, Klute grabs it by the scruff of the neck and gives it a good shake-down with a frantic percussion section while maintaining the strong melodies and progressions of the original. The result is a stunning blend of subtlety and impact, perfect listening whether you're on the dancefloor or off it. Continuing his high-speed ascendance, d&b's new kid on the block, Stray, justifies the hype with his superb rendition of 'If I Could Tell You'. Hammering the original components into a richter-scale headnod, the aggression of his beats is beautifully offset with a subtle yet umissable reinterpretation of the bassline. Sounding completely different to virtually anything else in the genre, Stray's irresistible remix has been waking up sleepy clubs all over the world, and must now rank as having one of the highest "what's-this-tune-m8?" ratios on the circuit right now. A genuine ear-worm. DJ support is coming in from right across the scene, including London Elektriccity, Friction, Doc Scott, Lynx, John B, Nookie and many more

Finish copy promo. Human Imprint, North America's respected drum and bass label, is excited to present the HUMAN CHEMISTRY EP by Milwaukee-based producer trio Gein whose reputation for a sound is as mental as the infamous Wisconsin serial killer is legend. In the tradition of revered UK dnb producer Technical Itch, Gein (Abel Gein aka Adam, and Saint Gein aka Ronnie) articulates the twisted reaches of the human soul with bold originality. Human Imprint head honcho Dieselboy enthuses "Gein has cultivated a truly unique, homegrown, North American techno grime sound -- nasty!" "Ghetto Dope" -- explosive dnb rooted in an old school hip-hop vibe -- is a collaboration with respected Atlanta producer/musician Mayhem. The track's laser precise hard tech thrust fused with Gein's bloodcurdling sickness make "Ghetto Dope" pure dance floor crack. Gein joins forces on "6 Feet" with acclaimed Brooklyn producers Silent Killer and Breaker, with a wicked sound that combines inspiration from military movies, hard east coast hip-hop and a form of hardcore called 'screamo'. The track is well known for its huge bombastic intro that morphs into wave after wave of raw drum and bass pressure.. "Ghetto Dope" and "6 Feet" are enjoying support from global tastemakers including DJ Hype, TeeBee, Counterstrike, Evol Intent, and SPKTRM. Load this one up - crowd demolition guaranteed.

ADRS002 Too Much Temptation - Foxrox & Geetox Audio Danger Records 12" Vinyl

Finish copy promo. This release has had major support from Fabio and Grooverider (Rewind selection of the week), Twisted individual, Bailey and Crissy Criss, plus many more.

Vienna based Foxrox (Yetis Demir) and Geetox (Michael Stary) have been into D'n'B for quite some time now. While djing and holding residencies at the most famous clubs in the capital of Austria (Beat It at Flex and All Souled Out at Roxy), they both decided - independently - to start to produce the music they love and like to hear on the floor. This was 4 years ago. After developing some skills and their own workflow, they decided to collaborate in the second half in 2008 and since then, their easy going work bears fruit. Sunrise - BMK / Coda (Zen Remix) Zen has come to Audio Danger Records.. Need we say more?

Zen has joined our team to do a remix of BMK and Coda's track Sunrise. The original version never saw the light of day but zen heard it through the grape vine and jumped at the chance to put his spin on this track. With vocals from Jett and live guitar from Sam Phillips, it satisfies all the Drum and Bass crew from the liquid lovers to the jump up heads.. This tune is a must for all.

NOPPA006 Wickidness / Drunken Master - Tes La Rok Remixes - Mungo's Hi-Fi feat. Brother Culture / Top Cat & Jacky Murda Noppa Records 12" Vinyl

Tes La Rok's first release in 2010 sees him returning to his own Noppa imprint with two massive remixes. Wikidness remix has already gained anthem status. The dubplate has been championed by a selected few DJs for the last 12 months. The tune combines roots-reggae with dubstep and adds an ounce of jungle vibes for extra flavour. Tes La Rok delivers a true natty dredbass remix. On the flipside you'll find his remix of one of the legends in the game. Top Cat's "Drunken Master" is certainly going to be one of the summer anthems of 2010. Rolling beats and sub-heavy bass combined with Top Cat lyrics is a sure shot combination to fire up the dances. One of the most anticipated 12" releases from the northern warrior Tes La Rok.

Part of the Man Make Music collective, George FitzGerald comes as the latest addition to the Hotflush Two roster. A perfect illustration of contemporary electronic production in a post-Hyph Mngo era, Fitzgerald continues the Hot Flush Two archetypal strand of dubstep-not-dubstep, referencing elements of Basic Channel-esque dub and ambience embedded into the jagged groove of modern UK garage. DJ support so far comes from Scuba, Joy Orbison and Appleblim.

BOKA029 Their Prey / Water Torture - Vista & Presence Known Boka Records 12" Vinyl

It's another heavy-hitter from the Boka camp, this time it's a debut on the label from Vista & Presence Known who's well publicised collaborations have caught the attention of the likes of EXCISION, CHRIS RENEGADE, 16BIT, DATSIK etc. and have been featured on the hugely popular 'Inspector Dubplate' Youtube channel.

These tunes are ultra heavy with a distinct Drum & Bass influence, massive club tunes that really need to be heard on a fat system, pretty much the dubstep equivalent of deep, dark Heavy Metal!

Vista in his own right is a successful Dubstep producer having had a tune featured on the recent Fabric compilation 'Elevator Music' and Presence Known has just released a tune on legendary D&B label Virus with BTK. Vista has plenty of big tunes coming on Boka Records so keep your ears to the floor for those...

DVA005 The New World Order EP - DVA DVA Music 12" Vinyl

The latest releases from a Producer famous for his persistent abuse of 4x4 convention, Scratcha DVA presents the New World Order EP on his own DVA Music imprint. Showcasing 4 tracks from a range of Producers the EP opens with a pair of brand new Scratcha DVA productions. The title tracks bomb shelter rave dynamics combine spiraling synths, warm organ stabs and heaving bass tones to apocalyptic effect while its companion 'Schizophrenic' lives up to its name, alternating a floor filling 8 bit 2 tone skank with churning Grime synths at their most sour. The flipside offers up Roska ally Uncle Bakongo's brutally stripped down take on Soule Power's 'Lost', pairing industrial strength drums with decaying vocal snippets and brooding keys before a last minute change of pace resolves the vocal tension. S.Chu's rounds out the EP with a reworking of his 'Quickfoot', fully equipped with a slow burn bass line and shimmering synth arpeggios. Please no sharing. Feel free to get in touch for more info.

NSDX004 Switched / Switched (DC Breaks Remix) - Mindflow Never Say Die 12" Vinyl

Marius Mevold aka Mindflow is 25 and hails from Trondheim in Norway. His NSD debut was picked up early by 1Xtra's Mistajam and when you hear it you'll soon see why. Mindflow has created an absolute monster of a dubstep track that's so catchy even your mum will be dancing her socks off to it: Fact. Switched has all the elements of a festival anthem; lush old-skool piano chords, soaring diva vocal cuts and huge sub bass wobbles that will shake any summer sound system. Just when you think it can't get any better, the half time dubstep beat switches into rolling UK funky vibes. Really and truly, this tune is a beast and has already had HUGE club and Radio support from Mistajam (6 weeks running on his 1xtra show!) as well as Annie Mac, Kissy Sell Out, Scratch Perverts, Oneman and Caspa. Of course a Never Say Die release wouldn't be complete without killer remixes and this one is no exception. D&B men of the moment and remixers extraordinaire, DC Breaks, have taken Switched to new lofty heights with their super production skills. In line with the Old Skool vibe of the original, the crisp beats and breaks underpin an awesome sub driven roller that is sure to be on heavy rotation for the summer. DJ Support: Anne Savage, Cut La Roc, Excision, Far Too Loud, Flux Pavilion, FreQ Nasty, Futurebound, General Midi, High Rankin, Jaguar Skills, Kid Kenobi, Pendulum, Reset!, Rico Tubbs, Riskotheque, Starkey and more.

SUBSOL010 Back For The First Time / Geordie Racer - Caspa Sub Soldiers 12" Vinyl

Finish copy promo. After a short spell away, Caspa is back with one of the most highly anticipated releases of the year on his own Sub Soldiers imprint. First up is an anthem that has been lighting up dancefloors airwaves globally as of late, in the shape of 'Back For The First Time' featuring Dub Police label mate D1. Gathering heavy support on BBC Radio 1 from Annie Mac & Zane Lowe, as well as being battered in the clubs by the who's who of dubstep A-listers this is fast becoming one of the biggest tracks to emerge from the scene so far this year and it's not hard to see why with it's catchy eutrophic chords and growling bass - this is no doubt going to be one of the tracks of the summer! On the flip Caspa teams up with another label mate; Subscape, for a tune that has torn apart countless dancefloors lately. 'Geordie Racer' takes no prisoners with its driving beats and outrageous basslines, anyone who has been lucky enough to be in a rave when this monster drops will no doubt tell you the carnage it creates in the dance. NONPLUS008 We Speak To Those / Hi Res - Kassem Mosse Nonplus Records 12" Vinyl

Hailing from Leipzig in Germany is an artist who's music has been pricking up many ears across the global underground over the last few years. It's hard to put a finger on what it is about Kassem Mosse's productions that make repeated listening a must, but the intricacy, fresh arrangements and musical depth definitely play a part in attracting labels such as the highly respected techno imprint Workshop, the legendary Soma Records and now Nonplus are honoured to present his latest 12".

a) Kassem Mosse - 'We Speak to Those' First up on the a-side we have 'We Speak to Those' a 4/4 track of the highest quality that keeps you guessing from start to finish. The rugged and raw kick and bassline immediately set the foundations for the incoming awkward chord stabs whilst reversed beats lazily slur in and out over the main groove giving the track the unnerving feeling that its almost changing tempo. Random sound effects and a non conforming arrangement make this track about as predictable as the English summer. One listen to this and you'll immediately understand why this artist is getting love from some of the scenes biggest players at the moment.

aa) Kassem Mosse - 'Hi Res' Phased drum machine breakbeat patterns and stutered percussion redolent of the early Detroit techno uprising give this track an outstanding quality of being able to conjure up the same feelings of hope and optimism for electronic music that the aforementioned era managed to. Thought provoking chord progressions take your mind on an excursion to the future and leave you gagging for an extended trip. Think skyways, flying cars and towering metal buildings footed with dark abysmal underworlds and you'll get the drift. They don't come much deeper than this one.
